Hypoxia 194
Hypoxia, erythropoiesis in hamsters 127

Immunodiffusion 112
Immunology, antigens in rat liver 331
Immunology, enzymes in rat liver 332
Immunology, urinary mucoproteins 330
Impedance changes 76
Increase of the afferent activity during conditioning 1
Insect behavior 102
Irreversible shock 175
Isoproterenol 267
Juxtaglomerular apparatus 131
Juxtaglomerular cell count 6
Juxtaglomerular index 6
Ketonemia 334
Ketonemia and sodium butyrate 334
Learning 1
Lecithin 292
Lecithinase C 292
Leydig cell 286
Liver 251
Liver lipoprotein 251
Lymph flow 175
Mammary gland development: Effect of hypothalamic and hypophyseal estrogen implants 115
Marsupials, bioelectric asymmetry in cerebral cortex 328
Marsupials, sleep and olfactory bulbs relationships 329
Mechanism of local tetanus 165
Mechanoreception 102
Medulla, electrochemical potentials and impedance changes 212
Melatonin 227
Metabolism of steroids 42
Microsomal ATPase 292
Monoamine oxidase, inhibitor 15
Neural control of pituitary 234
Neuro-muscular transmission 158
Nor-derivatives of morphine: Influence on abstinence syndrome 120
Normal rabbits 29
Oleic acid 292
Ophthalmotrophic activity 182
Ophthalmotrophic activity: Biologic studies 182
Ovary 247
Ovary in rats, castration 128
Oxytocin, Estradiol 17 β and pregnancy 127
Oxytocin, Estradiol 17 β and pregnancy 128
Oxytocin in humans 129
Pancreas 36
Parabiosis 200
Participation of parareceptors in conditioning 1
Phasic activity 149
Phenylalanine 15
Phenylethylamine(s) 15
Pineal gland 227
Plasma Na 6
Plasma volume expansion 95
Post-natal development of testis 302
Potassium-Magnesium ATPase 292
Potentiation of bradykinin 258
Pregnancy, Estradiol 17 β, oxytocin 127
Pregnancy, Estradiol 17 β, oxytocin 128
Pregnancy, Estradiol 17 β, oxytocin 129
Pressor responsiveness 131
Progesterone 333
Prolactin: Release in male 115
Propylthiouracil, T_4 334
Proteinuria 137
Puromycin 86
Rabbit anti-cancer antibody induction 112
Rabbits, lung arteries 129
Rat adrenals 42
Rat fetus 286
Rat liver, action of androgens 329
Rat organs and synthetic estrogens action 332
Rat urinary proteins 137
Rats, autoradiographic localization in ovary 329
Rats, hypoglycemic action of insulin 332
Rats prostate and hormonal action on $NADH_2$-oxidase system 333
Renal blood flow 207
Renal function 220
Renal ischemia 207
Renal medulla 220
Renal vasodilation 207
Reserpine and Magnesium 204
Salivary glands 36
Salivary glands 267
Salivation 36
Shock, endotoxin induced in dogs 250
Shock, hemorrhagic 194
Slow potential 76
Smooth muscles 158
Snakes, phospholipase A purification 330
Sodium butyrate 334
Steroid 286
Superior cervical ganglion 227
Surrounding molecules, Influence of 60
Testes 286
Testis differentiation 302
Testosterone 247
T_4, propylthiouracil 334
Thermal similarity 22
Thyroid gland 323
Thyroid stimulating activity 182
Thyroid stimulating activity: Biologic studies 182
Thyroid stimulating hormone 182
Toad kidney 95
TRF 234
Trypanosoma cruzi, antigens 130
Tumor proteins 112
Urinary proteins 137
Urinary Na 6
Urine concentration 220
Vascular permeability 175
Vasoactive peptides 258
Vasodilation by Acetylcholine 207
Vasopressin 36
Virus *Junin*, electrolytes 335
Wallerian degeneration 158
